

BAVARIANS TAKE DEFENSES AND ENTER POLISH CITY

Warsaw Surrenders to Leopold at Dawn After Long Struggle

THRICE BEFORE INVADERS WERE HURLED BACK
Capitulation of Stronghold Marks Elimination of Greatest Sustained Offensive Movement in the History of the War

(By Associated Press.)
BERLIN, Aug. 5.—Warsaw has been taken by the Germans, it is officially announced. The Bavarians, under command of Prince Leopold, broke through yesterday and last night the forts at the outer and inner lines of the city's defenses and entered the Polish capital this morning.

The fall of Warsaw marks the culmination of the greatest sustained offensive movement of the European war. Thrice before the Teutonic armies knocked at its gates, only to be denied by the strength of its defense's resistance. The Austro-Germans have been pressing upon Warsaw in a combined drive to force the Russians out of Poland and if possible break their offensive for an indefinite period, administering a decisive defeat all along the line.

NEWS OF WARSAW'S FALL IS CONFIRMED

(By Associated Press.)
LONDON, Aug. 5.—Confirmation has been received of the capture of Warsaw by the Germans. Warsaw has a population of nearly a million, and is the third largest city in Russia. A Petrograd dispatch stating that the Russian retreat to the Blonie-Nadaryn front was carried out unhindered is taken here as an indication that Grand Duke Nicholas had everything in readiness for the evacuation of Warsaw. Berlin's statement that only stubborn resistance by the rear guard blocked the advance of the Germans seems to confirm the Russian claim that the main army with its artillery escaped.

QUALIFICATION MUST BE AN EXAMINATION

PHYSICAL TESTS TO BE GIVEN IN COMPLIANCE WITH STATE LAW

An inspector, appointed by the Mine Operators' association, who six months ago opened offices at Goldfield, is just finishing up his work and will be over here in a week.

Everyone who applies for the benefits of the State Industrial association has to take this examination to qualify him to receive state compensation for death or injuries sustained while at work. The test is very simple and does not occupy more than ten minutes.

Since it is a state law to have every man pass a physical examination before working in a mine, inspectors are being appointed by several local associations and they are gradually taking in all the large mining camps of Nevada.

By the last part of next week the inspector will complete his work in the gold camp and will then, after leaving a director in charge there, open an office here. He is assisted by the regular surgeon of the Mine Operators' association.

STATE TREASURY HAS BIG BALANCE ON HAND

The state board counted the coin in the treasury Saturday morning and it was found that the state of Nevada is not entirely without funds to carry on her business. The count revealed the fact that Treasurer Malley had on hand \$309,000. Should the coin that is held up in disputed tax levies come in between now and the 1st of January, Nevada will be able to pay all bills and have a nice balance over.

MIDLAND ROUTE IS FOUND TO BE BEST

IS COMPARED VERY FAVORABLY WITH THE MUCH TOUTED LINCOLN HIGHWAY

A large seven-passenger Buick six carried W. D. McAdam and wife and David Miles, wife and daughter from California to Salt Lake City. They arrived here at 2 o'clock this afternoon and remained two hours. They have been on the road since June 29. Coming westward they took the Lincoln highway and reported the roads very poor. They went to San Francisco and from there to Los Angeles, San Diego and Mexico. The Midland route proved to be their path eastward.

On the way to Tonopah they met a large machine with six people who told them that they were going to go by the Lincoln highway, for the Midland route was very bad. This party came very near doing the same but finally decided to take chances. They said the Midland route was better than they could ever expect anywhere else and that the people of Nevada ought to publish literature and advertise the good roads.

The only bad stretch was between Paso Robles and Los Angeles.

The first result is expected to be the groundwork of an understanding for an all-American project to re-establish a constitutional government and preserve its sovereignty, and thus convince the world that the United States is acting as Mexico's nearest and most powerful friend. Other Pan-American countries, including Cuba, will be asked to join.

NINE HUNDRED OF FLEET DESTROYED

Russian Torpedo Boat Flotilla Does Great Injury to the Shipping of Turkey

(By Associated Press.)
LONDON, August 5.—A significant phase of the near eastern operations which had passed almost unnoticed is revealed in a Petrograd announcement of the destruction of 900 Turkish craft in the Black sea by a Russian torpedo boat flotilla. More than 800 of these were sailing vessels. The persistence of the Turks in building ships, despite their continued destruction, is believed to mean that Constantinople is in desperate need of supplies.

FUR TRADE FEELS EFFECT OF THE WAR

(By Associated Press.)
LEIPZIG, Germany, August 5.—In common with London, Paris and Petrograd, Leipzig has felt the effects of the war on the fur trade with extraordinary keenness. The business in this line is practically at a standstill, and few if any firms are adding anything to their already over-large stocks. In previous years it has been just at this time that they have begun to load up.

NAPOLEONIC WEAPONS USED WITH SUCCESS

(By Associated Press.)
INNISBRUCK, Tyrol, August 4.—While both Germans and Austrians are fighting with a 42-centimeter cannon, and with weapons that are the last word in the art of the arms manufacturer, the Tyroleans who have been drawn into the war by the entry of Italy find that the weapons used in the Napoleonic wars are still effective, and are using them with what is reported as great success.

REFUGEES GRATEFUL TO AMERICAN CRUISER

(By Associated Press.)
ALEXANDRIA, Egypt, August 5.—The American cruiser Tennessee leaves the Mediterranean station with the gratitude of thousands of refugees rescued from Syria. Her presence in these waters tranquilized the panic-stricken inhabitants at the time of Turkey's entry into the war, and every week a load of refugees, mostly Jews and foreigners, has been transported from Syrian ports to Alexandria under the American flag. On her last voyage, over 700, including many Jews, were rescued. The Tennessee is relieved by the Chester.

GERMANY HOLDS TO FORMER POSITION

Reiterates Its Willingness to Make Reparation for Sinking Steamer Frye

(By Associated Press.)
WASHINGTON, Aug. 5.—The controversy between the United States and Germany over the sinking of the Frye is still unsettled with the publication of the latest German note, which again justifies the German course, but reiterating a willingness to make reparation for the ship.
